

Welcome to AbleYouth Alliance's toolbox for donations!

Hello drive donors,

AbleYouth Alliance would like to say thank you for taking an interest in our donation drives. Making donations to the health industry and people with disabilities is a wonderful way to contribute to your community.

On our donation page, you can see the steps to host a drive, when you're done collecting all the items, you can email us at ableyouthalliance@gmail.com, then we can discuss the steps to delivery, and we will donate the items to a specific hospital or health center, along the lines of that you can also donate to your local hospital using our name and keep track of the numbers.

On the second to third pages of this document are the materials you would have to print out for donation drives: guidelines and a template for the drive flyer.

Important: All donated items must be **new and follow the guidelines**. The key to getting as many items as possible is to spread the word about it: flyers, connections, social media, and emails are your biggest help.

For questions, concerns, or just anything that seems confusing email us at ableyouthalliance@gmail.com anytime! Individuals are the reasons we are who we are today.

Hello fiscal donors,

Your consideration and time towards AbleYouth Alliance are truly appreciated. Make a contribution to hospitals and health centers by checking out the end section of our donation page. The money will go to individuals who are patients with health conditions all over the world or people who are in need.

Donation Guidelines

To ensure the safety of another in your community and the finality of the items, we have to guarantee all items are finalized without the following criteria.

AbleYouth is thankful for your patience and consideration of donations.

- **All donated items must be new and unused. An item without store exterior packaging otherwise known to be unwrapped is not eligible.**
- **All items cannot be disturbing or harmful to the user. Our target group ages from 5-17. Appropriate items should not include the means of violence or causes of violence.**
- **Donators should consider the hazard warning of the item(s) they want to donate. No toxicity, electrical, or experimental items are allowed.**
- **With all means please do not throw or damage the donations and the box.**

Your contribution will always be remembered at AbleYouth Alliance. Thank you for saving the lives of medical patients and kids with disabilities who are in need.

Sincerely,
AbleYouth Alliance

Help donate to impact the lives and awareness of children with disabilities!

Donate _____ to the following drive location to help those who are in vital need.

For kids ages 5-17
